Movin' away, crazy days to leave
I'll always be an alarmist
Who'd jump at a chance
Anything for romance
I hope I'll always be what you want

Movin' away
Those I'll miss
Those I won't
But I hope your heart will be where my home is

A new life to create
A new life to create

Don't know quite why
But I was feeling unsatisfied
I have to get out now
Trying to find it

Possessed by your love
Under the influence
And though there's a new life line
I won't forget the one I left behind

A new life to create
A new life to create
A new little life
