All alone at the end of the day
Really tired, it's time to hit the hay
It was always good to hear you say

You never were a drawback
You always were an asset
You never were a drawback, no you weren't

All alone at the end of the day
Really tired, it's time to hit the hay
It was always good to hear you say

You never were a drawback
Yeah, you always were an asset
You never were a drawback, no you weren't

Put away your corset
Put away your shoe
Put away the old September blues
