"Our World"

We're closer now than ever before
(How much alike we are
Perhaps we're long-lost brothers)
There's love in our world and we're showing it more
(We even think the same
You know there may be others)
Our world says, "Welcome, stranger"
Everybody's a friend
(We can always use a friend)
Favorite stories to tell
In our world

Some say our world is getting too small
(So many things to learn
But we'll enjoy each lesson)
I say with kindness, "There's room for us all"
(Problems don't worry us
When half the fun is guessing)
Our world is always changing
Everyday's a surprise
(Live a lifetime of surprise)
Love can open your eyes
In our world

When night lays sad upon you,
Go watch the simple sunrise
Love can open your eyes to our world

Some say our world is getting too small
(So many things to learn
But we'll enjoy each lesson)
I say with kindness, "There's room for us all"
(Problems don't worry us
When half the fun is guessing)
Our world is always changing

Everyday's a surprise
(Live a lifetime of surprise)
In our world
In our world
In our world
