Is there a doctor in the house tonight?
If there's a wrong he could make it right
Is there still a lock on your back door?
Is there still a lock on your back door?

Tell me I'm wrong, tell me I'm right
Tell me there's nobody else in the world
Tell me I'm wrong, tell me I'm right
Tell me there's nobody else in the world

Is there a doctor in your house tonight?
If there's a wrong he could make it right
Is there still a lock on your back door?
Is there still a lock on your back door?

Tell me I'm wrong, tell me I'm right
Tell me there's nobody else in the world
Tell me I'm wrong, tell me I'm right
Tell me there's nobody else in the world

Tell me there's nobody else in the world
Tell me there's nobody else

There'll be a knock on your front door
There'll be a knock on your front door
There'll be a knock on your front door
There'll be a knock on your back door

There'll be a knock on your back door
There'll be a knock on your back door
There'll be a knock on your back door
There'll be a knock on your back door
