We?re gonna fight over night
You?re gonna see me in the dark
Shining through the battlefield
You see me flying above the ground

Rub my eyes to make it clear
Now I can see my enemies
Trapping me in empty fields
(With my fellows all around)

Acting dirty deeds
Danger to mankind

I am a I am a
I am a I am a

Chor: ALPHA FEMALE
Tear down the veil I am a I am a

Once I will go (all through my life)
I'm experienced and I'm tough
I'm a warrior and I'm the threat
But I'm nothing, nothing you can expect
I am a I am a
I am a I am a
