Cravin' you've got me cravin'
Hungry for the taste of love in my world so young and
new
Cravin' you've got me cravin' cravin' lovin' living a life
with you

Love was just another word until you came along
Somehow you found that feeling that was hidden for so
long
Your love is deep inside of me and my heart and soul
you found
Now I'm just like a lonesome guy that's stands on shaky
ground
Cravin' you've got me cravin'...
Cravin' you've got me cravin' cravin' lovin' living a life
with you
