Oh there's a great big jealous man looking for me
And he's got blood in his eyes it's plain to see
Every time he mention my name is but a curse
Yeah he's really out to get me but I know he's got to
catch me first

Well I guess I had a little too much for the last night
I met a pretty woman and we were headed off just right
I didn't know she was married must've worn her ring in
her purse
Yeah he's really out to get me but I know he's got to
catch me first

Oh but when you're at a party and everybody's partin'
with you
You do a lotta somethin' but who remembers doin' what
would who
Now his plans may be no no good maybe worse
Yeah he's really out to get me but I know he's got to
catch me first
[guitar]
Oh but when you're at a party...
