Now if you please here take my keys borrow my car
You light my shirt I'll take it off here you are
Oh but my girl I love too much now you can look but
don't you touch
Hands off keep your hands off of my baby

I saw you try and steal a kiss as if you could
You see my fist my fist can kiss pretty good
I know you're drinking I'm drinking too
But I know what you're tryin' to do
Hands off keep your hands off of my baby

She's everything she's all I've got in this old world you
see
To lose my girl would pull the world right out from
under me
I told you just how I felt so keep your blows above the
belt
Hands off keep your hands off of my baby my baby
