"Just Outside The Church"

Visit "[Just Outside The Church](#)" on MotoLyrics.com

Oh I telephoned before you left home for your wedding
today
To wish you the best the best of happiness in every way
But there's still some time you could change your mind
I still love you so so much
And I'll be there and wait up there just outside the
church

If there's any doubt at all that he's the one you love
If it's still my arms if it's still my lips you're thinking of
Then don't say I do don't take his ring for you
And before your lips can touch
While you're still free please come to me just outside
the church
While you're still free please come to me just outside
the church
