"Loving Her Through You"

All life you win I lose she's yours the choice she made
was you
But please before you take your price this I ask of you
Fill her life with happiness make her dreams come true
Love her enough for the both of us for I'll be loving her
through you

Will you do this much for me be her kind of man
Love her like I wanted to or let me try again
My only hope is I'll forget and find somebody new
Till then I'll just pretend she's mine loving her through
you
Well you do this much for me...
