Everybody's got one baby my hang-up is you

Everybody's got one the hang-up of some kind  
Call it habit or call it weakness thank goodness I've got  
mine

The wanting the craving the needing keeps my world  
from crawling through

Everybody's got one baby my hang-up is you

I've hung up all the thrills I feel when I hold you in my  
arms

I'm hung up because I need your love to wrap around  
and keep me warm

You're my little piece of heaven you're all I've got to  
hang on to

Everybody's got one baby my hang-up is you

Everybody's got one baby my hang-up is you
