(You've cried the last tear) you're gonna cry
(You've kissed your last lips) that cheat and lie
Forget him baby he's just not worth hurtin' for
(Your heartache's over) it's all gone (I'll make you
happy) from now on
And no one's gonna hurt you anymore

(You've been mistreated neglected and cheated) out of
the love you should have had
But give me a while and I'll make you smile for the
times he's made you sad
(You've cried the last tear) you're gonna cry
(You've kissed your last lips) that cheat and lie
And no one's gonna hurt you anymore

Don't be afraid my darling come to me just cling to me
And I'll kiss away all of your tears
For here in my arms I'll keep from harm thruout all the
coming years
(Your heartache's over) yes it's all gone (I'll make you
happy) from now on
And no one's gonna hurt you anymore
No no one's gonna hurt you anymore
