(dicky barrett/joe gittleman/bosstones)

Read the papers, thing look grim  
Watch the news, the outlook' dim  
It's clear to see there is something wrong  
Could be that we don't change alot  
But we should give it our best shot  
Our only weapon is a song  
Maybe we're being to naive  
But this is something we believe  
What's beyond belief is just how much is wrong  
Nothing is gained when people fight,  
Maybe our heads aren't screwed on tight  
Our only weapon is a song  
We're not building bombs or storing ammunition  
We're just playing songs hoping people will listen  
Others try hate but hate won't move anything  
We're trying love and unity too  
We're not packing pistols,  
We're not waging war  
Most of our missiles have only four chords  
It's not a great plan but we like the agenda  
The arsenal's music and the army's our friend  
Could be our idea isn't great,  
Maybe our heads aren't screwed on straight  
We may be wrong and maybe nothing's wrong  
And we might never win the war  
But we'll have fun and that's for sure  
Our only weapon is a song
