Check the new car out in the mirror
Here comes the fastest man in the traffic jam
A major road rager with a bone to pick
I'll take another quick look and I'm over it
Right you're richer now weren't you happier
When you were shit out of luck
You've got so much but you've forgotten
It's more fun when you don't give a fuck
Tear it down to the ground
A lot of kids grew up in there
You put it up and then you made a ton
Well aren't you the lucky one
Right you're richer now weren't you happier
When you were shit out of luck
You've got so much but you've forgotten
It's more fun when you don't give a fuck
