"Bring Me Blue"

I fell in love with time, with time
I spent it with you and I fell in love with you too
That's the hardest thing that
I've been through
And memories of you bring me blue
Memories of you bring me blue

Each day I say,
"Tomorrow's the
day I'll
When I let y go and fly away
And so may this sorrow all end tomorrow
But memories of you bring me blue
Memories of you bring me blue
But oh, I know how this goes
It happens every time
I make up my mind
To push you away
All these memories come back anyway

Memories of you bring me blue
Memories of you bring me blue
