You and me we found so much freedom
So how'd we get back into bedlam
And sometimes I find myself looking behind
At all our good days and good ways

And that just don't make sense
Cause I love you, I love you
But I just can't see
I can't see through me

And in the mirror I still see me
But in my head its not who I see
And like a captain on his boat
Who is to afraid to let it float

And that just don't make sense
Cause I love you, I love you
But I just can't see
I can't see through me
