I'd climb a ladder of thrones to be with you rose  
I'd turn a circle into a square  
Be anything, go anywhere  
If you forget

I'd march from here to where?  
Just tell me and I'll be there  
And I'll make a miracle for you  
That's the least I would do  
If you forget

And if you forget  
A whisper from my lips

Will always exist in your soul  
Until once again you know

That this love burns for you  
And this heart yearns for you  
Girl, please see  
If you forget me  
If you forget me  
I'll forget me too.....  
I'll forget me too....
