What I gave to you
Never came back through
Oh no matter what I do
I fall right through
You

Building a world around
A thin ice ground
Only a matter of time
Before I fall
Through

Your hand isn't here now
I'm caught up in my fears now
Have I lost my love dear?
Have I lost my love?

And it hurts to know
That when I go through
Oh I wont see
You

At the edge
As you once
pledged
As you once
Pledged

But your hand isn't here now
And I'm caught in my fears now
I've lost my love dear
So I've lost our love
I've lost our love
