

Freestone "Children Of The Widow"

Visit "[Children Of The Widow](#)" on MotoLyrics.com

I'm too far in
About to say farewell
I'm giving in
To facing the West in myself

I'm too far out
Far out of the centre
Help me out
Turning around and get out
of this shell

You can live without a shadow
You can open up your mind
Will you come to my assistance
Children of the Widow

Can I decrease
For something else
To be increased
to make me be free from myself
You can live without a shadow
You can open up your mind
Will you come to my assistance
Children of the Widow

Hand on heart
You know something's wrong
From head to head
To hand in hand
Shoulder to shoulder
I'm left alone
So try me, prove me

You can live without a shadow
You can open up your mind
Will you come to my assistance
Children of the Widow
