There's a lot of fear for all that is unknown  
There's a lot of romance here that isn't shown  
Seeing things that are not there  
Hearing words they never said  
Misinformed into the twilight zone  
But it really takes two  
For these tricks being played upon you  
You can get out of this conspiracy  
You can be the one standing next to me

You can tell him by the liberties he takes  
With common sense full of mistakes  
What to believe you can never be sure  
History ain't real no more  
An idle brain is what he's going for  
It really takes two  
For these tricks being played upon you  
Beyond the light is just a book  
From a hungry who failed to take a look

Playing small doesn't serve mankind  
In stead I have to find this other state of mind  
Not the dark within that frightens us so much  
But the power beyond measures and the light we  
cannot touch
