Visit "[Out Of The Dark](#)" on [MotoLyrics.com](https://MotoLyrics.com)

From the first man to Atlantis  
Down to Egypt for you to understand  
Delphi oracle, the Hermetic touch  
From mount Moriah to the founding of the lodge

All the way through ancient history  
Osiris and the Rosslyn treasury  
The origin remains a mystery  
Veiled in symbol and allegory

Out of the dark .....

From developing the Craft to a Templar knight  
From the lost Word of Solomon to gaining second sight  
From the Place of the Skull, where the triumph begun  
The world saw Him loosing, but in stead of that he won

All the way through ancient history  
Osiris and the Rosslyn treasury  
The origin remains a mystery  
Revealed in symbol and allegory
