This could have been just another day  
But instead we're standing here  
No need for words it's all been said  
In the way you hold me near  
I was alone on this journey  
You came along to comfort me  
Everything I want in life is right here  
'Cause  
This is not your ordinary, no ordinary love  
I was not prepared enough to fall so deep in love  
This is not your ordinary, no ordinary love  
You were the first to touch my heart  
And everything right again with your extraordinary love  
I get so weak when you look at me  
I get lost inside your eyes  
Sometimes the magic is hard to believe  
But you're here before my very eyes  
You brought joy to my world  
Set me so free  
I want you to understand  
You're every breath that I breathe

This is not your ordinary, no ordinary love

I was not prepared enough to fall so deep in love  
This is not your ordinary, no ordinary love

You were the first to touch my heart

And everything right again with your extraordinary love

From the very first time that we kissed

I knew that I just couldn't let you go at all

From this day on, remember this

That you're the only one that I adore

Can we make this last forever

This can't be a dream

'Cause it feels so good to me

This is not your ordinary, no ordinary love

I was not prepared enough to fall so deep in love

This is not your ordinary, no ordinary love

You were the first to touch my heart

And everything right again with your extraordinary love

This is not your ordinary, no ordinary love

I was not prepared enough to fall so deep in love

This is not your ordinary, no ordinary love

You were the first to touch my heart

And everything right again with your extraordinary love
