That's it!
Nicki Minaj
And Fromage Furtif
Alright, let's do this

Baby you my everything
You all I ever wanted
We could do it real big
Bigger than you ever done it
You be up on everything
Other hoes ain't never on it
I want this forever
I swear, I can spend whatever on it
Cause she hold me down every time I hit her up
When I get right I promise that we gone live it up
She make me beg for it, till she give it up
And I say the same thing every single time
I say
You the fucking best [x4]
You the best I ever had
Best I ever had [x3]
I said you the fucking best.
Spitting fire on that fresh new track,
Got the beat back in my brand new backpack
Never gonna bring it down, just kidding I'm playing
around
You can have your fun with me but never forget cheesy
I guess you misunderstood, I wrote those lyrics to
make it sound how it should
Don't you see that I just wanna be as good
Don't ever forget me, even if you get free
And that's how it should be.
You have to pay, you know in this world, nothing's free.
Let me see what that girl just forgot
I'm sure you could try something and give it a shot
Don't ever do that in a parking lot
Or your friends will bash on you and call you a slut
Bring the beat here so the speakers hit the top
Play it on repeat til it starts getting nonstop

Baby you my everything
You all I ever wanted

We could do it real big
Bigger than you ever done it
You be up on everything
Other hoes ain't never on it
I want this forever
I swear, I can spend whatever on it
Cause she hold me down every time I hit her up
When I get right I promise that we gone live it up
She make me beg for it, till she give it up
And I say the same thing every single time
I say
You the fucking best [x4]
You the best I ever had
Best I ever had [x3]
I said you the fucking best.

Plug your speakers in that 3.5 Jack
Let your head bangs to my newest fresh track
Just record the song and it sounds pretty legit, right?
Oh and by the way, Nicki's part of that god damn flight

It's so amazing I figured out this world is ours for the taking
I figured out that when I go out and those people scream
That some of them are living bi-curiously thru me
That's why I put the s on my chest and I'm gone
But on another note let's have sex in my dorm
And I'm a' make you beg cause you look pretty when you begging
So meet me on the campus I'll be there around eleven

So let me put my books down
Excuse me if I look down
Guess I'm a little nervous
When I'm at your service
Look at what you took downnnnnnnnn

Baby you my everything
You all I ever wanted
We can do it real big
Bigger than you ever done it
You be up on everything
Other niggas never on it
I want this forever
I swear I could spend whatever on it
That's why I hold you down
Every time you hit me up
When I get right I promise that we gone live it up
I make you beg for it
Until I give it up

You say the same thing every single time

You the fucking best [x4]

You the best I ever had

Best I ever had [x3]

I said you the fucking best.

Oh yeah

It was pretty cool, huh ?

Alright, let's do this

Fromage Furtif
