You said open your eyes and
I said I don't like surprises
You said surprise you're up to your knees in the water
and don't have a life vest
I know, I know, I know
But don't worry I've got it figured out
You said jump in the boat man
I said no you reach your hand
You said the storms that will come will be more than
enough and alone you can not win
You know, You know, You know
With out hope you'll only sink not swim

And the current here is stronger now than I remember
and I'm crying for you to help, Please save me.

(Chorus)

When I feel like I am drifting away
Sinking down, the sands are shifting today
I'm about to loose my way
You Anchor, Anchor me down
Looking out the skies are turning to grey
All around the tide is pulling away
Just about to loose my way
You Anchor, Anchor me down

You said whatever happens
Don't get caught in the rapids
Hold on Iâ€™m over the edge and Iâ€™m reaching for help
cause I
Im caught in the deep end
I know, I know, I know
What you said but Iâ€™m in over my head
You said that Iâ€™m not alone here
I said throw me a rope then
I've had more then enough of the rain and the cold and
I wanna give up and
I know, I know, I know
With out hope I'll only sink not swim

And the current here is stronger now than I remember
and I'm crying for you to help, Please save me.

(Chorus)

And the current here is stronger now than I remember
and I'm crying for you to help, Please save me. (x2)

(Chorus)
