We got our poster up  
We are ready to set fire  
Put a hole in your cup  
They want to slow us off  
But the slippin', yeah, the slippin'  
And they cannot keep up

We got the posters up  
And we're rockin', yeah, we're rockin'  
Like it's never enough  
They want to slow us up  
But our hand is on the trigger  
And we are ready to shout

Has far as it turned and we're burned  
And everybody is talkin' about it, so what  
We have fire crackers, baby  
And they want to stop  
They want to stop to solve  
But they will never get us

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up again  
(Get up, get up  
Get up, get up)

We are gonna tread our feet  
With our hands in the air  
Never missing a beat  
And they can smell the weak  
So we're rockin', yeah, we're rockin'  
And we'll never retreat

Got our posters up

And they're takin', yeah, they're takin'  
Trying to turn back the clock  
They want to slow us up  
But our hand is on the trigger  
And we're ready to shout

Has far as it turned and we're burned  
And everybody is talkin' about it, so what  
We have fire crackers, baby  
That they want to stop  
They want to stop to solve  
But they will never get us

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up again

Get up, get up  
And everybody is talkin' about it, so what  
Get up, get up  
The one that start, but they'll never, never get us  
Get up get up  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up and

We go, go, go  
Like we are on top of the world, world, world  
They keep bringing us down, down, down  
We get up, we get up, we get up again
