Its my life x 7

Iâ€™m trying to decide how to live my life cause its
always been up to me
If I reach up too high will I fall from the sky and then
everyone will see
There are some things in life that you do with a smile
and then others get you down
Donâ€™t text to my phone gotta do this alone
Iâ€™m just waiting for the sound

I donâ€™t need explanations
And I donâ€™t want complications
I just want my life to be free and right for me!
Yeah!

No textbooks, no rewrites
No one can tell me what to do
Ill be friends with who i want to
No one can tell me what to do
Cause its my life

If I could start everyday
With a fresh open page
I would never get depressed
When my parents complain
It just all sounds the same
I wish they'd just give it a rest

I donâ€™t need explanations
And I donâ€™t want complications
I just want my life to be free and right for me!
YEAH!

No textbooks
No rewrites
No one can tell me what to do
No heartbreaks, no goodbyes
No one can tell me what to do
Break free when i want to
No one can tell me what to do
Cause its my life

Sometimes it gets so hard
And your needing a shoulder to cry on
Ill be there, like you'll be there for me too

Its my life x4

Iâ€™m alone in my room when it all gets too much
Thatâ€™s were I can find some peace
And I wish for the day
I can scream out and say
This is who I wanna be!

I donâ€™t need explanations
and I donâ€™t want complications
I just want my life to be free and right
for me! YEAH!

No textbooks
No rewrites
No one can tell me what to do
Ill be friends with
Who i want to
No one can tell me, tell me!
No heartbreaks, no goodbyes
No one can tell me what to do
Ill break free when I want to
No one can tell me, tell me!

Cause its my life, cause its my life, its my life
Cause its my life, cause its my life
