We'll Pull Through  
The Saddle Club  
I've finally found, what I needed all along  
My girls to hold me tight, and keep safe and strong  
So this is why, I look to you  
Best friends, in everything we do

We're friends for now, friends forever  
We'll keep each other going, no matter what the  
weather  
Shoulder to shoulder, hand in hand  
We'll always be there, to love and understand

Support me and love me through thick and thin  
Tell me, your secrets and trust me from within  
We have our problems, yes it's true  
But no matter what, I know we'll pull through

It's down to us three, and if things look too hard  
I'll get back on the track, 'cause I found my guiding  
stars  
I'll share our secret, that's plain to see  
I never knew happiness, 'till you were with me

Support me and love me through thick and thin  
Tell me, your secrets and trust me from within  
We have our problems, yes it's true  
But no matter what, I know we'll pull through

If we fall off the track, we help each other remount  
If we gallop into troubles, we'll help each other out  
And no matter what happens, we'll stick together  
Riding along, the pathways of life

Support me and love me through thick and thin  
Tell me, your secrets and trust me from within  
We have our problems, yes it's true  
But no matter what, I know we'll pull through
