I don't understand why we do what we do to each other  
According to His Word, we're all born sisters and  
brothers  
But we live and we still  
We lie and we kill  
Even though we know the way...

Why do we go dancin' in circles?  
When we know it never ends  
We come so close to loving each other and then  
We go dancin' in circles again

All through the ages we've tried to share this world  
together  
We turning the pages  
Pretending we'll live here forever  
We'll come to face our Maker someday  
And we'll put his stone on the way

Why do we go dancin' in circles?  
When we know it never ends  
We come so close to loving each other and then  
We go dancin' in circles again

We know how so why can't we just get along  
And I pray someday we'll overcome  
All the damage we've done  
And we'll find...

Why do we go dancin' in circles?  
When we know it never ends  
We come so close  
So close to living His lamb  
Loving each other like sisters and brothers and then  
We go dancin' in circles again

Oh... yeah
