I've finally discovered what makes you tick,
And I can't say I miss it or that you should be too proud
of it,
Now I'm driving away, wishing you would've stayed,
Know I'll never forget you, I hope things work out for
you that way,
Because we've been here before and it's getting old,
We've been fighting this fight never taking the time to
let things grow

Oh no, I don't know what to do, I don't know what to say
to make you stay, to make you stay.
I feel like this is so surreal, I don't know what's the deal,
Wish you had stayed, wish you had stayed

I've finally discovered just how you feel,
You had fallen in love and expected a reaction,
Some strange kind of attraction,
And I didn't ask *you* questions, no, I just ran away,
Now I'm patiently waiting for a response you'd send
one day,
I didn't think anything would come of it,
But I guess I could be wrong with this,
Hey, I'm only a man, I'm only a man
Oh no, I don't know what to do, I don't know what to say
to make you stay, to make you stay.
I feel like this is so surreal, I don't know what's the deal,
Wish you had stayed, wish you had stayed

Finally we're getting somewhere,
Finding out just who we really are,
Finally we're getting somewhere now,
Finally we're getting somewhere,
Finding out just who we really are,
Finally we've gotten past the things we see and who we
really are

Oh no, I don't know what to do, I don't know what to say
to make you stay, to make you stay.
I feel like this is so surreal, I don't know what's the deal,
Wish you had stayed, wish you had stayed

Oh no, I don't know what to do, I don't know what to say
to make you stay, to make you stay.
I feel like this is so surreal, I don't know what's the deal,
Wish you had stayed, wish you had stayed
