Yea

This is the strongest I've ever felt before  
Killing off my loved ones and the ones I adore  
I've surpassed my limits  
Destroyed all commitments  
Death as my own witness  
Fuck you all  
This is the strongest I've ever felt before  
Killing off my loved ones and the ones I adore

Yea

Overcome you, I've overcome you all  
(I see all these faces, all these fucking faces, staring at  
me with these beady little eyes, waiting for me to pull a  
rabbit out of my ass, you're all driving me)

You're all driving me insane

I've surpassed my limits  
Destroyed all commitments  
Death as my own witness  
Fuck you all  
Overcome you, Overcome you  
I've overcome you, I've overcome you all
