You're strange, you're weird, you're not quite
right,
They don't understand you, they don't want you in
their sight,
Some of them say "there's no place for you here",
A loved one comes to you and whispers in your ear...

"I used to love you, but now I can't look at you"
Don't disown me, don't wanna be lonely,
"You make me sick, now you're just an "it"
Don't disown me, don't wanna be lonely,
You're not like the others. They hate one another,
You're not like the others and that's why I like you,

You shamed your family with your sickened mind,
They don't know what's become of you, you're not
one of their kind,
They look at you with disgust, they look at you with
fear,
They're all shouting at you now and this is what you
hear...

"I used to love you, but now I can't look at you"
Don't disown me, don't wanna be lonely,
"You make me sick, now you're just an "it"
Don't disown me, don't wanna be lonely,

I am the voice that speaks inside your head,
Nobody likes you, they wish you were dead.
I am the voice that eats at your soul,
And torments you so, I'll leave you low,
I am the voice that whispers the dark thoughts,
I'll make you contemplate suicide,
I am the voice that'll drive you insane,
You don't know me, but I know you,
I am the voice that always holds you back,
And you throw it away because I get my way.

I am the voice that speaks inside you head.
