### V.1

How can I say thank you for all you have given me.  
What can I offer to you when you are everything.  
Never-ending blessings, all your promises are true.  
And all this is like nothing when compared to forever  
with you.

### Chorus:

Oh how I love you, Jesus.  
Your grace is all that carries me.  
I can't express just how your sacrifice  
Is my whole life, Savior.

### V.2

There's no counting all the ways that you've been there  
for me.  
I can't live without you, you're the reason that I breathe.  
Only you could fill this emptiness inside of me.  
Only you could change this heart and only you could  
save me.

### Bridge:

You are my Savior Jesus.  
You are the only hope I have.  
I can never repay you.  
God you are all there is.  
(repeat)
