I traveled down this lonely road  
So many times, God only knows  
Still trying to find a stable home  
Where I can finally rest my soul

### CHORUS

As my tears start to fall  
I'm back where I began  
Singing from place to place  
To get out of this hole  
I can't find no peace  
Down my lonely road

I'm tired and the money's tight  
In and out of bars, till its morning light  
Holding the pain of a broken home  
I don't know, how long I can go

### CHORUS

As my tears start to fall  
I'm back where I began  
Singing from place to place  
To get out of this hole  
I can't find no peace  
Down my lonely road

### BRIDGE

I've had my share of pain  
But the scars still remain  
The devil's dealing my cards  
My fate is not too far, Yeah

### SOLO

REPEAT CHORUS

END CHORUS
