We had it all

Stereo type love

Candy and flowers

Was our foundation

Everything fell apart

The flowers died

Everything faded

And before we knew it

We were goneÂ....

Pre Chorus

GoneÂ.....

Chorus

What happened to all those vows

What happened

What happened to you and me

What happened to everything we thought we were

What happened?

Verse 2

You said you loved me and I believed you

All those vows and promises weren't really true

I fell for you, I was jaded

Before we knew it we faded

You deceived me throughout my life

How could I have ever believed you

We thought our love was forever

All you ever did was give me gifts

And before we knew it we were gone

Repeat Chorus

Bridge (rap):

Yo, we here tonight

Hanging and chillin' the feelings just right

Now that we over I'm finally free

C'mon yall we breathe

(repeat rap)

(Repeat Chorus)
