Restless known

1stV:

Tell me my restless known

No other can tell me what you know

you know you told me you'd let me know

if your gonna hold me or let me go it alone.

chouse:

Alone..there is no compromise

alone..we just let it in or let it slide

alone...i will get by

alone...there is no inbetween the lines

*Besides me you got it all wrong,you gotta walk before

you crawl,replacing me with your little enuendo

aint no big suprise baby that it dont mean nothing at

all.

but your showing me exactly what you want me to see

and your telling me exactly what you want me to hear

all this keepin me here like putting salt on the wing aint

no big suprise baby that it dont meen a thing..at the

end of the line.

2nd Verse:

Tell me before we go any futher are you waitin on the

big crash

You know you told me you wanna give it away,but

behind the scenes you were taking it back.

Alone...there is no compromise

Alone...we just let it in or let it slide

Alone...i will, i will get by

Alone...we are still alone alive

**At the end of the line is there ever enough time let in

this world is there love at the end of the girl.
