This is not an exit, this is not an exit  
I need to feel something, American Psycho  
My confession means nothing

Abandon all hope ye who enter here  
Pre-meditated calculated I can smell the fear  
Don't try to tell the truth just black and blue your eyes  
Graphic scenes of beauty I've become what I despise

Leaned into the light now I'm crucified  
Flesh, blood, teeth, not lies  
Later that night is how the story goes  
Rent, rewind, return my videos

This is not an exit, this is not an exit  
I need to feel something, American Psycho  
My confession means nothing American Psycho  
Nothing American Psycho

This is no attempt to preempt my own death  
I won't kill myself and I'm not taking requests  
The machine has left me scarred, scared of its insanity  
I've burned too many bridges to pretend to be holy

Honesty is ugly so we don't have a deal  
Flesh, blood, tongue, I'm real  
Later that night is how the story goes  
Rent, rewind, return my videos

This is not an exit, this is not an exit  
I need to feel something, American Psycho  
My confession means nothing American Psycho  
Nothing American Psycho

No matter how profane, sacred or insane  
Painfully preoccupied it's always still the same  
The killer is inside me, don't try to take my life  
I've buried all my hatchets but I've sharpened my  
knives  
What? Fuck

This is not an exit, this is not an exit

I need to feel something, American Psycho  
My confession means nothing American Psycho  
Nothing American Psycho, this is not an exit
