{Verse 1}

I'm not your average girl, Most boys can't deal with me
I'm from some other planet, Bout to take over the
scene
Some call me aggressive, Or some boys just call me
mean
I'm not a fan of pretty boys, Why can't they let me be?

You don't really love me (I can tell)
You are all the same (And i know you well)
I can tell exactly what you want from me
I figured out your anatomy
O, Let me breathe (x2)

I don't want no pretty boy, i will chew you up and spit
you out
Play with your mind like a toy, make you scream and
make shout
No Pretty Boy (x4)

I'm not your average girl
I'm here to change the world
Your game's too clear to me
You need to finally see

I don't want no pretty boy, i will chew you up and spit
you out
Play with your mind like a toy, make you scream and
make shout
No Pretty Boy (x4)

{Verse 2}

I'm about my business, You wait in line
Many dudes just want the chance, But i don't have the
time
My schedules kinda busy, I will call you back
No need to fret and cry, You need to relax

You don't really love me (I can tell)
You are all the same (And i know you well)

I can tell exactly what you want from me
I figured out your anatomy
O, Let me breathe (x2)

I don't want no pretty boy, i will chew you up and spit
you out
Play with your mind like a toy, make you scream and
make shout
No Pretty Boy (x4)

I'm not your average girl
I'm here to change the world
Your game's too clear to me
You need to finally see

I don't want no pretty boy, i will chew you up and spit
you out
Play with your mind like a toy, make you scream and
make shout
No Pretty Boy (x2)

{Breakdown}
Hey LADIES! (yeah!)
You know what I'm talkin' bout (3x)
Hey LADIES (huh?)
Thirsty like he in a drought (3x)
Thirsty [Let me breathe!]
You know what I'm talking bout (3x)

I don't want no pretty boy, i will chew you up and spit
you out
Play with your mind like a toy, make you scream and
make shout
No Pretty Boy (x4)

I'm not your average girl
