Let's get wasted
It's all we ever do,
We're so stupid
But that's ok the drunks are your friends
We'll just sit here
Wasting our time
Thinking out loud
There's nobody listening

Well I'm ever so cold
Is all I get told, I'm ever so cold
You're ever so shy
You keep it on side
It's more than just lies
You're ever so cool
And I'll be a fool if you let me
I'm ever so shy,
You're ever so shy,
We're ever so shy

And oh we are
Counting up the reasons to be shy, she is
Counting out the reasons to try
I know, I know we're getting there
I know we're coming now well let's pretend
Waiting around in the back, bored and i think
5 minutes more of this well this is wearing thin
I know I know we're getting there
I know well come on now yeah let's pretend

Well I'm ever so cold
Is all I get told, I'm ever so cold
You're ever so shy

You keep it aside it's more than just lies
You're ever so cool
And I'll be a fool if you let me
I'm ever so shy, you're ever so shy, we're ever so shy

Stop!

You must be kidding..

You must be having me on
And it's easy yeah yeah
And there's no reason to be shy
Go ahead and let her lie
I can not figure it out
I can not figure it out

Whilst you know the ones they're coming for and
Whilst you know the ones they're calling for you

Why you know the ones they're coming for and
Why you know the ones they're calling for you
They're calling for you..

Well I'm ever so cold
Is all I get told,
I'm ever so cold
You're ever so shy
You keep it on side it's more than just lies
You're ever so cool
And I'll be a fool if you let me
I'm ever so shy,
You're ever so shy,
We're ever so shy
