"Kill All Control"

Visit "[Kill All Control](#)" on MotoLyrics.com

I tried living in the cage that you had built me
I couldn't breathe I said, "good bye"
You pushed the buttons wrong and maybe now you will
see
I wouldn't die, now watch me fly
It's time to find my saving grace
Before you burn right through my soul
I've gotta fade out from this place
I wanna live kill all control
Kill all control
Please save your argument and swallow it with envy
The Last one standing takes the fall
I've been your servant to the rules and it don't taste
sweet
It's none for one, and gun for all
It's time to find my saving grace
Before you burn right through my soul
I've gotta fade out from this place
I wanna live kill all control
Take away everything especially my pride
You took away my own love, you stole away my life
I hope you find it in your own
Really let me go
It's time to find my saving grace
Before you burn right through my soul
I've gotta fade out from this place
I wanna live kill all control
Kill all control
Kill all control
