Burning - i kill on demand  
Sweet .16 in my hand  
Await the command  
Closer - and closer by far  
Now i know who you are  
The gemini scar

This is our world  
This is our time  
Grab a gun / come on let's go  
This is our world  
Burning bright  
Come on let's end it all tonight

Bleeding - a sad sight to see  
Pale and down on your knees  
I'll set you free  
Fire & flame draw the blood  
Leave you dead in the mud  
Now where is your god
