Bite the hand I know she doesn't care  
Leave a trail the hounds will find us anywhere  
Call the cops and tell em what we've done  
Tell em that tonight we stole your father's guns  
With your right hand, you sayin  
"I think we're gonna be so close"  
Let's sing a song, on our way back home  
You and me shooting holes in the moon

You and me shooting holes in the moon  
Take my hand there's no one here to see  
Push your bones against the earth with me  
With your right hand you saying  
"I think it's gonna be so close"  
Let's sing a song on our way back home  
You and me shooting holes in the moon  
You and me shooting holes in the moon  
On our way back home.
