(Verse)

I get the feeling the moments awaking  
That I'm tryin' to dream,  
But there's no one to take me there  
And I vote for you  
You get the feeling that you're always asleep  
And if you look out the scene  
Baby touch me off the secret

(Verse)

But I don't give a damn about your dreams  
Whole world that is falling off the scene  
That's what it supposed to do  
But I don't give a damn about the scene  
It's my only way back to you  
It seems that  
Our cry into the night

(Chorus)

You feel me  
You can call me on  
Give it up give it up  
You, oh  
You can call me on  
Give it up give it up  
You, oh

(Verse)

Get the feeling that I'm always on rain  
Got an entire dream, and there's no one to take there  
And I vote for you  
Get the feel that you're always asleep  
You get the feeling that you're always asleep  
And if you look out the touch me  
And see me at the secret

(Verse)

No one gonna tell you but your truth  
All world that is falling at the scene call  
That's what it supposed to do  
And I don't give a damn about the scene

It's my only way back to you  
It seems that  
Our cry into the night

(Chorus)  
You feel me  
You can call me on  
Give it up give it up  
You, oh  
You can call me on  
Give it up give it up  
You, oh

(Chorus)  
You can call me on  
Give it up give it up  
You, oh  
You can call me on  
Give it up give it up  
You, oh
