

Gie Few "Be Done"

Visit "[Be Done](#)" on MotoLyrics.com

Yours & mine, it came together, let's not go back that
far, but
stay around the edges, askirt with hedges, not another
beat
out of this wasted broke-down heart

Why don't we think this over, see how the whole thing
looks in
the daytime, then you can be done

Left up to chance and written off the pages, thrown the
whole
way down, sun sets & rises like old & new vices, hold
on to
victory for one last lap around
We're blue on the outside and shivering within
Headed the right way for a long way back again

Yours & mine, leave the beach and head for the
coastline, I'm
not the one who left long ago, I'm not the one who said
'let's do
this just for show and then we'll be done'
