

## **Gie Few "Follow Me"**

Visit "[Follow Me](#)" on MotoLyrics.com

Follow me, I'm headed that way myself  
and it seems, you could use somebody else

Main focus is leaving this hole  
come sunshine I've been down here too long  
I'm brain damaged & drenched to the bone  
& that's not right

I'm through listening through every meal  
I've been stood up, I stood down & stood still  
I've been the target of fire at will  
& that's not right

In this promise of decades galore  
you've been gracious I can't ask for much more  
I'd cook breakfast I'd sleep on the floor  
that's alright
