

Gie Few "Shaken"

Should've been there to take the call
could've been the one
would've been happier
I've been shaken for so long now
Wasn't there for that
wasn't there to breathe in
wasn't there to downshift when the road got steep
I've been shaken for so long now

Take a bite out of the world & pass it along
no time to wonder
Take for sale out of the window, still looking for the one
who's final word is not goodbye
Wasn't in the cards, still I could've reached out
could've brought it in
wasn't my journey at the time
I've been shaken for so long now
Four speakers in the back, long road ahead
been a fool too long
empty frontseat, full tank
I've been shaken & it's 'so long' now
