Check out my six pack, whoa!
They love my six pack, whoa!
Let's grab a six pack and have some fun
Let's grab a drink, lets get fucked up

What up my name is Izack I'm a straight up g
I party 24/7, 8 days a week
And I party hardy, sip bacardi, rock and roll
Hit some switches get some riches, get some bitches,
smoke a bowl
And I love the sound of the boom when the beat drop
Love the way them girlies shake they ass with the hip
hop
And they love it when we puttin it down, rollin' around
It's just another night on the town
In the 4, 4 steady while we lettin it bump
With the six pack everybody gettin' hella drunk
All them bitches in them jeans with they ass so tight
Lookin at the mamasitas like I'm fuckin' you tonight
Cuz she love the way I lean and I let my pants sag
And she lovin' everything cuz I got white boy swag
She love the six pack cuz it's so legit
And all the shit that makes you feel like a celebrity bitch

I got a six pack, whoa!
I pop a six pack, whoa!
I got abs of steel, let's rock this place
Gonna P90X all over your face
Check out my six pack, whoa!
They love my six pack, whoa!
Let's grab a six pack and have some fun
Let's grab a drink, lets get fucked up

Hair's lengthy, wildchild
My neighbors hate me, we get loud
Next time they complain about the sound
We'll get sledgehammers, tear the walls down
I travel with wolves in sections six packs
Niggas never stop askin where the spliff's at
Looked at my abdomen like I should rip that
Then I looked at the cans, ripped open a six pack
I'm talkin six pack, Bradd Pitt aint shit

Six pack will handle any situation
I like to break shit, it gives me inspiration
To start a mosh pit, let's get wasted
I got wine so old that it's ageless
I got rum so sweet you shouldn't chase it
I got vodka so smooth that it's tasteless
But face it, we crackin' beer bottles

I got a six pack, whoa!
I pop a six pack, whoa!
I got abs of steel, let's rock this place
Gonna P90X all over your face
Check out my six pack, whoa!
They love my six pack, whoa!
Let's grab a six pack and have some fun
Let's grab a drink, lets get fucked up

Ladies lift your shirts up, let me see your six packs
Fella's crack the cans out, let me see your six packs
Ladies lift your shirts up, let me see your six packs
Fella's crack the cans out, let me see your six packs,

(six pack, six pack, six pack)

I got a six pack, whoa!
I pop a six pack, whoa!
I got abs of steel, let's rock this place
Gonna P90X all over your face
Check out my six pack, whoa!
