Hard times tough times the bitter sweet unknown
To face this day without you would be impossible
Tomorrow if I awake with scars upon my brow
Run beside me suicide queen shoot away I'm in love
So tell me what's it going to be

Take me in is there a problem baby darling
Expect to be down but never out
Don't cha (3x) know it
Kamikaze love machine
Did you find out what it means
To give up everything

Your an ashtray on a runway heading for Nepal
What you want boy you don't need boy shiny guns and
toys
The devils out there on the prowl now looking to
destroy
If your not listening then I'll show you what it means to
go
So what's the point of this outrage
Keep your cool or blow away

Take me in is there a problem baby darling
Expect to be down but never out
Don't cha (3x) know it
Kamikaze love machine
Did you find out what it means
To give up everything
