So still, i feel safe in here with you,
do you feel safe in here with me?
this Oldsmobile carries my dreams,
(i cant believe) I'm talking to a picture,
it makes me want to warn ya,
or you might be running to California
like me

don't budge and i'll tell you how it happened,
don't budge and i'll tell you how it happened

open evenings, bring solemn warning to this heart,
that though i'm leaving,
i'm scared i won't know what to say,
where to start, what to say, where to start,
what to say?

so still, i think about you EVERY DAY,
do you think about me at all?
or does being with him put up some sort of wall,
(i can't believe) i'm talk to your sister,
so i just have to warn ya,
cause i'm running to Cali for you.

don't budge and i'll tell you how it happened,
don't budge and i'll let you know what happens

still, open evenings bring solemn warning to this heart,
that though i'm leaving (and i'll see you soon),
i'm scared i won't know what to say,
where to start, what to say, where to start,
What to say?
