Don't you step your dirty foot in here brother  
And don't you ever think to come around here no  
more  
You've gone and done it you'll never be the  
same again.  
I want blood and I want it now yes  
Everything you see is everything you'll lose so  
Let it be baby we'll entertain you  
They let you in I showed you out the only way I can  
The only way I thought I ever could destroy you.  
Wrapped up in the grapevine  
We're gonna raise it  
Bound and tied  
We're gonna break it  
Hold your breath  
We're gonna face it  
You're going down, yeah we're gonna turn it up  
loud  
Whose side are you on and whose race you runnin  
Give it up you nearly killed yourself last time  
Everyone you see is everyone that knew you were  
wrong  
They want blood and they want it now yes.  
A little bit of what you thought was never gonna surface  
Its come around its been brought to attention  
We let you in we showed you out the only way we can  
The only way we thought we ever could destroy you.  
Wrapped up in the grapevine  
We're gonna raise it  
Bound and tied  
We're gonna break it  
Hold your breath  
We're gonna face it  
You're going down, yeah we're gonna turn it up  
loud  
We're gonna raise it  
We're gonna break it down now  
If you never believed baby believe in this  
We're gonna face it  
We're gonna turn it up loud  
If you never believed baby we're leaving this town
