I wanna feel it, my name...  
Tonight I wanna satisfy you  
Life is me and you fair view  
I wanna listen to... I just wanna do it better  
Think you do whatever, I... you  
I pull my teeth and your flesh as soon as is all you  
I just wanna, huh, taste your skin  
They say the line between love and hate is so thin  
I make you feel like I hate you, oh  
But it's all sweet, so hard to feel that my... got a heart  
beat  
Bum, bum, bum I just wanna kiss you baby, I'mma  
make you purr  
... it's something about her... baby  
I just throw it on the... met her on Twitter  
Posing in the bathroom,  
Are you're posing on a bed of roses...

Baby, these fists will always protect you, lady  
And this smile, oh will never neglect you  
And mistakes ain't gonna break us down  
Don't let us affect us  
You just gotta let my love (let my love) adorn you  
You gotta know, you gotta know, know that I adore you  
Just that baby  
I -I-I-I-I, let my love adorn you baby  
Don't let know man tell you different baby  
Let my love adorn you  
You gotta know, ahhh  
You gotta know that I adorn you  
Just that babe!  
Let my love adorn
